Professional Experience

Software Engineering Student, **AltSchool Africa**
April 2022 – Present

- Led a team of 6 to create a schoolstat project which allows data to be displayed and automatically sorted in ascending and descending order

- Built CashCow a fintech web application for saving and investing as my exam project competing with 1000+ engineering students and received a positive 85% score remark.
  It was created using react.js. Error boundary, fake user authentication and nested routes were implemented in this application.
  Technology: *React.js, CSS*
  Link to project: https://alfredchado-altschool-cashcow-app.netlify.app/

- Developed the digital newsroom for an existing brand. It includes weekly news, as well as a game to foster internal communications. Since I built this, internal communication has gone up by 50% in the organization. It also features a link to a fully developed newsletter.
  Technology: *HTML 5, Bootstrap, and JavaScript*
  Link to project: http://ipnxnewsroom.netlify.app/

- Created Simones oasis, a website for empowering the African child through entertainment. It features media elements as well as a good use of imagery and colors. The platform has recorded increased engagements by 60%.
  Technology: *HTML, Bootstrap, JavaScript*
  Link to project: https://simones-oasis.com/

Product Designer, **cish.ng**
October 2019 – Present

- Redesigned the ipNX Nigeria company's internal communications mail platform using Figma, HTML CSS & JavaScript and bolstered the process by 15%
- Supervised a 5-member cross-functional (product, engineering, sales, support) team and coordinated with a founder toward the successful launch of an e-commerce platform.
- Revamped and built more than 15 websites with 99% user experience satisfaction.
- Managed the entire UX/ UI end to end process of the organization and clients for 3 years
- Implemented processes that saw a 500% increase in revenue in 3 years.
- Executed the user experience design of clients across 5 industries and improving their IT processes as well as their revenue.

- Developed the user interface and managed a functional newsroom for a telecommunications company that enhanced internal communications by 100%.
- Revamped website flows and navigation menus, reducing the frequency of misdirected customer service queries by 30% and increasing traffic to previously neglected pages.
- Conducted user experience research and devised new approaches that led to a 40% increase in productivity.

Product Designer, **FETS WALLET (Contract)**
September 2021 – December 2021
Independent contractor for FETS WALLET

- Lead UI/UX website designer for FetsWallet. Revitalized and redesigned the official website of the organization with a 99% client satisfaction rating.
- Modernized by design the organizations dashboard and optimized its overall usability by 80%
- Created custom graphics sets for clients, with 99% client satisfaction scores.
- Handled all composition, color, illustration, typography, and branding for the website redesign project.
- Raised UX scores by 35%.
